Mr. dr. Dumitru Lazurca, the President of ROPAM Association makes a brief introduction to open the meeting. He explained that it was a good idea to organize this meeting in the same day and in the same building with The first Conference for Tourism and hotel keepers from Transilvania. So it is a good opportunity for this conference participants to visit the small exhibition organized by NUTRACEUTICAL from Sacele.

Mr. Lazurca Dumitru, president of Association ROPAM - Association of Producers, Processors and Users of Medicinal and Aromatic Plants from Romania exposes the main objectives of the meeting and suggests to all participants to visit the exhibition with food products for breakfast, to taste them and to make comments. These health food products are projected by NUTRACEUTICAL in collaboration with University Transilvania from Brasov and some of them contain also a saffron extract.
